

AP Electronics

AP School Bell

AP School Bell is an electric bell which can be used for Schools, colleges, factories etc. Bell unit can store upto 30 schedule times from Sunday to Saturday plus Exam days with 4 different types of ringtones. It can output AC 230V/5A on 3pin AC socket on scheduled time everyday.

It has 16x2 display which displays Time & date and other information. On power on it will display serial no. SSID & unit parameters.

AP Bell Unit (ACCESS POINT)

Wi-Fi Client (Station)

Bell unit works on Access Point (AP) to create its own Wi-Fi network and nearby Wi-Fi devices (station) can connect to it. (Smartphone or Wi-Fi enabled Laptop/Computer)

Bell unit can connect to Smartphone on Wi-Fi network using SSID (i.e. APxxxx) & password.

To connect the bell unit & smartphone on Wi-Fi network:

(In Smartphone Setting > Goto WiFi Setting > Select WiFi network as 'APxxxx' and enter password as provided.)

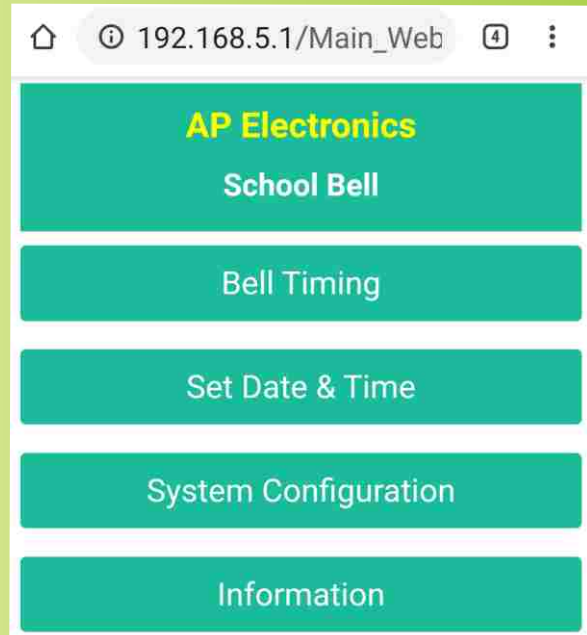

SSID:

Password:

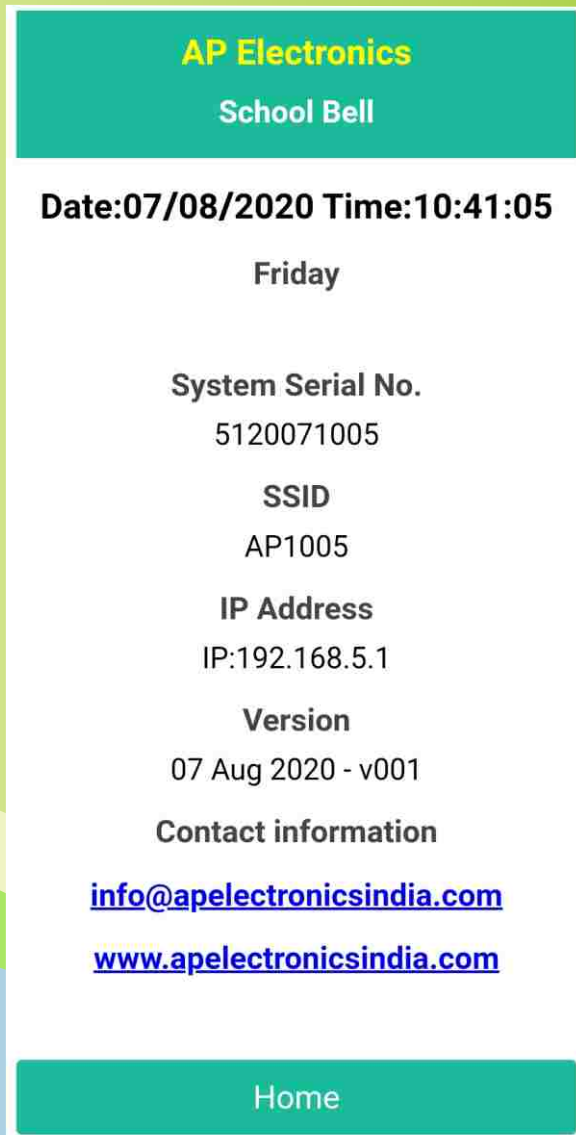

Turn off your mobile data & Open Browser App (i.e.: Google Chrome) and type **192.168.5.1** in the address bar and it will display several options.

Now you can set Real Time Clock, all schedule & parameters as you wish.
